Deploy Chatbot for Healthcare Applications

1. Deploy a Cognitive Systems or Chatbot for healthcare applications.
    Use the following conversation-
    'Hi',
    'Hello! I am HealthBot. How can I assist you today?',
    'Hello',
    'Hi! Do you have a health-related question?',
    'I have a headache',
    'You should rest, stay hydrated, and take a mild pain reliever if needed.',
    'What should I do if I have a fever?',
    'Drink plenty of fluids and rest. If the fever persists, please consult a doctor.',
    'I feel dizzy',
    'Sit down, breathe deeply, and drink water. If it continues, seek medical help.',
    'What should I eat for a cold?',
    'Warm fluids, soups, citrus fruits, and light meals help during a cold.',
    'How to stay healthy?',
    'Eat balanced meals, exercise regularly, stay hydrated, and get enough sleep.',
    'What should I do in case of a cut?',
    'Clean the wound with water, apply antiseptic, and cover it with a clean bandage.',
    'How much water should I drink daily?',
    'Generally, 2 to 3 liters per day is recommended, but it varies based on your
    activity.',
    'Thank you',
    'You're welcome! Take care.',
    'Bye',
    'Goodbye! Stay healthy.'
